

14.03.09.25

Домашнее задание.

$$1) 3,129 - 0,02 \leq A \leq 3,129 + 0,02 = 3,109 \leq A \leq 3,149$$

$$2) 2,129 - 0,0091 \leq A \leq 2,129 + 0,0091 = 2,1199 \leq A \leq 2,1381$$

$$3) 7,112 - 0,001 \leq A \leq 7,112 + 0,001 = 7,111 \leq A \leq 7,113$$

Пример: $100000 - 100 \leq A \leq 100000 + 100$ $\delta = \frac{100}{100000} \cdot 100 = 0,1\%$

$$d = 100 \mu \quad 99900 \leq A \leq 100100$$

$$\Delta = 100 \mu$$

Пример: $10 - 0,1 \leq A \leq 10 + 0,1$ $\delta = \frac{0,1}{10} \cdot 100\% = 1\%$

$$d = 10 \mu \quad 9,9 \leq A \leq 1,1$$

$$\Delta = 0,1 \mu$$
